On support of BRICS Symphony Orchestra

Dear Ms. Zelentsova,

We have got acquainted with the initiative of creation of BRICSSymphony Orchestra and the organization of its premiere concerts in spring of 2018 in Moscow.

The implementation of this project, in our opinion, will make a significant contribution to the formation of common cultural and humanitarian space of BRICS union, promoting the goals and objectives of the BRICS countries, the development of the five-sided interaction between public organizations and citizens. It creates harmony in diversity, promotes intercultural understanding and global cooperation based on shared language of music, symbolically shows the huge potential for BRICS to become a benchmark for the rest of the world. We believe that this project deserves support of our name of Dr. Shridhar Dixit, PhD. CMD, YumSun Majestic Media company. And, for its part, YMM Group of company is ready to facilitate its implementation, to render ever assistance in the framework of its competence.

Regards
